

Important Rate Information for Residential Electric Customers

Delmarva Power filed for an electric delivery rate increase in September 2009. The change in rates is effective April 19, 2010 in accordance with Delaware law. The typical residential customer using 1,000 kWh per month will see a bill increase of \$4.96 or 3.3 percent.

This rate increase is subject to refund to customers, with interest, if the Delaware Public Service Commission's final approval of electric delivery rates is less than the rates implemented by Delmarva Power.

The Commission is conducting a thorough review of this proposal. Delmarva Power will notify customers by mail of any changes. The ultimate amount of the rate changes must be approved by the Commission.
